Self Adhesive Surface Protection Cover

Description:

VanGuardX is a self-adhesive, non-slip, and waterproof non-woven surface protector, designed for site protection use. Its extra-strong and durable structure safeguards surfaces from paint, chemicals, spills, and sharp objects, making it ideal for construction and insulation applications. With easy installation and removal, it is reusable, easy to clean, and repositionable, providing both safety and cost efficiency.

Areas of Use:

Protection of floors, staircases and countertops in particular. Can be applied on all surfaces such as wood, laminate, ceramic tiles, and natural stone.

KEY FEATURES

TWO LAYER CONSTRUCTION

Non Slip

Impact Protection
